SUPPLEMENT B

HORSE BREEDERS ONLY

Horse Qualifications: Land used primarily for “raising, breeding, and/or grazing horses” and other activities that are for “farm or ranch purposes” are agricultural uses. In particular, “growing grass on land for the purpose of feeding animals, including horses, is an agricultural use.” The principal use of the land must be agricultural—for “farm or ranch purposes”—not recreational ones. If the use of the land is principally recreational, or as a hobby, then the activity, although agricultural in nature, is not one that promotes a farm or ranch purpose but instead promotes a recreational purpose. If the land is used primarily to show, train, stable, race, care for or otherwise divert livestock from a farm or ranch purpose, that land so diverted is not eligible as qualified open space land. Similarly, land used as a stable, where horses are kept, fed and cared for, is not being used primarily for an agricultural use, unless the stable is incidental to farm or ranch purposes.
